

Keep players coming back with advanced features!

Universal Memory Card Features:

- Download steps online and bring them to the arcade on popular USB memory cards
- Use the memory card to save options, high score name, and other preferences
- Track stats with a memory card, and view performance history using any web browser - even share the data with friends
- Machine high scores are saved on the memory card too: post the latest high scores for favorite machines online
- Save screenshots of top scores directly to the memory card and post them online

Goodies for Advanced Players:

- New expert difficulty steps challenge even the most hardcore players
- Unlock codes are entered by players
- 50+ modifier options total, including 20+ new arrow modifiers for creative challenges
- Select multiple options on the same options line to create thousands of combinations
- Choose between multiple arrow skins
